Blank itemised quote checklist

Treatment scope and charges

This is a blank template, not a real patient or provider quote, a treatment recommendation or a confirmed price.

Use one copy for each provider. Ask for dated written answers, then compare the same treatment scope. Leave unknown answers and amounts blank; a blank is not zero or confirmation that an item is included. Mark not applicable only after checking.

Copy confirmed details from the provider's written quote. Keep the original quote with this checklist.

Quote record

Treating provider's legal name, practice and clinical contact

---

Quote reference, issue date, valid-until date and currency

Upper arch, lower arch or both; tooth positions and number of teeth or bridge units

---

Itemised treatment

For every item, record the material or system, quantity and unit, amount and currency. State whether it is separately charged or included in a named priced item. Do not count an included component twice.

Assessment, scans and other investigations

Implant fixtures and placement: system and count for each arch

---

Abutments (connectors): type, quantity and fitting

Temporary teeth: type, material, units and fitting

Final crowns, bridges or teeth: type, material, units and fitting

---

Extractions, grafting or other procedures, only if proposed

Written treatment total; unpriced items still to confirm

Blank itemised quote checklist

Every visit and travel cost

This is a blank template, not a real patient or provider quote, a treatment recommendation or a confirmed price.

Two visit spaces are provided for planning, not as a promised treatment schedule. Your dentist must confirm how many visits are needed and the time between them. Add more sheets if needed.

First visit

Treatment stages, provisional or confirmed dates, appointments and nights

---

Treatment amount due at this visit and what remains to be paid

---

Flights: route, who books and pays, and amount

Accommodation: hotel, room type, nights, companion and extra-night charges

---

Transfers: airport and clinic journeys, who arranges them and amount

---

Next visit, if required

Treatment stages, provisional or confirmed dates, appointments and nights

---

Temporary or final teeth supplied; amount due at this stage

Flights: route, who books and pays, and amount

Accommodation and transfers: what is included on this visit and extra charges

---

Whole-trip budget

Further visits or delays: arrangements, extra nights and who pays

---

Other travel costs, separate travel total and combined budget; unknowns

---

Blank itemised quote checklist

Aftercare, responsibilities and terms

This is a blank template, not a real patient or provider quote, a treatment recommendation or a confirmed price.

Ask who provides each service, where it takes place and who pays. A coordinator's contact does not confirm clinical cover or a UK aftercare agreement.

Aftercare responsibilities

Treating clinician's follow-up contact, hours and out-of-hours arrangements

Reviews: provider, location, timing, included services and charges

UK care, if separately agreed: provider, scope, access and charges

Further treatment or return travel: responsibility for treatment, flights and nights

Reimbursement, if offered: authoriser, advance approval, limits and evidence

Records supplied: treatment summary, implant parts, materials and care instructions

Payment and changes

Payment recipient, deposit and balance dates; currency or payment fees

Cancellation, refund and treatment-change terms

Warranty, if offered: provider, duration, scope, exclusions and conditions

Unanswered questions, who will reply and date of written confirmation
